

## Portfolio Evaluation

Student: \_\_\_\_\_

DUE: December 9, 2008

**Directions:** Your portfolio should contain 3 entries for each of your 5 signature themes:

- one illustrating how each theme has influenced something you did in the past,
- one illustrating how each theme is influencing something you are doing now,
- and one illustrating how each theme may influence something you choose to do in the future.

Your portfolio may be in a 3-ring binder notebook, in a poster display, or in electronic form using PowerPoint. We can use the SmartBoard for your presentation. Let me know if you choose this format so I can sign-up to have the SmartBoard available in our classroom on the day of your presentation. I do have a 3-sided poster display board if anyone wants to use it.

Due to class enrollment, we should divide these presentations into two groups so that we don't all go into a trance. If you have your portfolio ready prior to the due date and would like to present it on December 2, or earlier, please let me know. Bonus points will be given for early presentations.

Each student will complete the evaluation form on the back for each presenter, and these will be mailed to you with your final course evaluation.
